

## **Showroom Exterior Detail includes:**

**Washing** - We gently wash every car with environmentally friendly soap

**Full claying** - Key element in detailing which removes grit, overspray, environmental fall-out, and ferrous oxide deposits (rail dust) from clear coat.

**Sap Removal** - Removal of sap and tar from exterior using clear coat safe products.

**Compound** - We use a number of different compound mixtures depending on the color and severity of the vehicle at hand. The compounding process removes light scratches and swirl marks.

**Polish**- Revitalizes the shine and luster, bringing out the color and finish of the vehicle.

**Wax** - We use a nonabrasive, almost indestructible, high gloss protective, carnuba based marine aeronautical wax which provides a long-lasting protective shield.

**Wheels** - We use a powerful solution to restore chrome, alloy, or polished aluminum rims.

**Finishing touch** - Dress tires, polish chrome, clean door jams, and windows.

## **Showroom Interior Detail includes:**

**Vacuum** - Entire interior and trunk.

**Air Gun** - Removes debris from cracks, crevices, and hard to reach places.

**Shampoo** - Floors, cloth seats, all floor mats and trunk.

**Hot water extraction** - Removes difficult and deep stains.

**Clean leather/vinyl** - Remove grease, grit, and grime.

**Condition leather/vinyl** - Improves durability and longevity.

Clean dash, doors, console, and vents.
