

Letter of Appreciation from NIASE

Bob:

I am consistently humbled and awed by the quality of the individuals who, year after year, are nominated as finalists for the NAPA Technician of the Year. You are certainly one of the most deserving technicians and shop owners who have been selected to represent NAPA in this capacity. It has also been my honor to have had the opportunity to work with you these past three years to carry on this noble tradition. Your dedication and character is representative of the best our industry has to offer and I am proud to count you among the thousands of ASE certified professionals. Thank you for your time and counsel as part of the judging team.

Thanks also for the note and the feeling is definitely mutual. Please keep in touch and I'll look forward to seeing you at an ASE workshop in the future.

Best regards,

Tony
